Hi Glen,

Please find attached the Technical Requirements Document (TRD) as discussed. You will see in the Section 1.1 "Description of Document" of the TRD that there is an overview of the nature of the TRD which may be of some use.

For your ease of reference the relevant section for your consideration is Section 7 "Jackpots". Please note there are specific references to Bonus Jackpots in 7.1.5 and 7.5.

Peter Herring has provided the following note to me regarding his interpretation of the TRD:

*"...the TRD was not referenced in the legal response by Deb Tegoni in 2012, but after reviewing the TRD definition of 'Bonus Jackpot' in my view this is not relevant to the implementation of the 'Bonus Jackpots' revenue calculation categorisation at Crown as it refers to an 'external device to pay additional bonus prizes'. Bonuses and Bonus Jackpots at Crown Melbourne are determined and issued by the approved EMS which is separately defined in the TRD which then distinguishes it from an external payment device as referenced in other Jackpot Definitions included in the TRD eg 7.14 Mystery Jackpot "external jackpot controller or the EMS".*

Once you have had the opportunity to consider, please call me to discuss.

Cheers  
Josh
